Reminder - Preventing Underage Alcohol Sales

The BLLC would like to remind all of our stakeholders, especially our licensees, that it is highly important to prevent underage sales of alcohol. Licensees should work to make sure best practices are in place to prevent such sales, including, but not limited to: ID checks, ID scanners, signs and notices, and making sure all employees are appropriately trained or take an alcohol awareness course.

What should a community do if they suspect an establishment is selling to minors?

Anyone with such a concern should submit a 311 request, and may also directly contact the agency. The BLLC has a special task force that works with police cadets in an undercover capacity to test whether an establishment is properly checking ID and complying with the Rules and Regulations.

If a licensed establishment sells to a cadet in this case, the licensee is then brought before the Board for a public hearing, at which time community members may testify to the impact of the violation.
