**Alleged violation of Rule 4.05 (Prohibited Hours) when at approximately 2:05 a.m. on May 13, 2022 members of the BLLC conducted an after-hours investigation at the establishment after receiving information that the establishment was advertising and holding after hour events on Thursday and Saturday nights. Inspectors parked at the Royal Farms, which is approximately 500 yards from the establishment with a clear view to observe whether the establishment appeared to be open and operating. The inspector observed the parking lot to be empty but could clearly hear music emanating from the building. For approximately the 15-20 minutes, the inspector observed a large number of cars arriving and parking in the parking lot located directly on the opposite side of the street of the establishment and observed patrons exiting their cars, walking across the street and entering the front door of the establishment. Upon arriving at the establishment, the inspector identified the manager. They stated the establishment was closed but the inspector mentioned they were observing the establishment and was aware they were open and operating with patrons inside. When the inspector attempted to enter the establishment, they observed both doors were locked, but the manager did not have the key, and made a phone call. The manager was requested several times to open the door and it was a fire hazard to have patrons locked inside, and the Fire Marshall would be called to unlock the doors. After the doors were unlocked from the inside of the establishment, the inspectors entered and observed three people inside. When the inspectors exited the front door and proceeded around the building to the rear of the establishment, they observed approximately forty or more persons standing outside the rear door as well as people walking down the alley way towards their cars across the street.**
